

The Role of Gender in Influencing Public Speaking Anxiety

Authors : Fadil Elmenfi, Ahmed Gaibani

Abstract : This study investigates the role of gender in influencing public speaking anxiety. Questionnaire survey was administered to the samples of the study. Technique of correlation and descriptive analysis will be further applied to the data collected to determine the relationship between gender and public speaking anxiety. This study could serve as a guide to identify the effects of gender differences on public speaking anxiety and provide necessary advice on how to design a way of coping with or overcoming public speaking anxiety.

Keywords : across culture, communication, English language competence, gender, postgraduate students, speaking anxiety
