

A Study of Safety of Data Storage Devices of Graduate Students at Suan Sunandha Rajabhat University

Authors : Komol Phaisarn, Natcha Wattanaprapa

Abstract : This research is a survey research with an objective to study the safety of data storage devices of graduate students of academic year 2013, Suan Sunandha Rajabhat University. Data were collected by questionnaire on the safety of data storage devices according to CIA principle. A sample size of 81 was drawn from population by purposive sampling method. The results show that most of the graduate students of academic year 2013 at Suan Sunandha Rajabhat University use handy drive to store their data and the safety level of the devices is at good level.

Keywords : security, safety, storage devices, graduate students
