

Attitudes of the Staff in the Faculty of Science and Technology towards the E-Office Documentary System of the Faculty of Science and Technology, Suan Sunandha Rajabhat University

Authors : Narinee Sophatsathit, Yuwadee Nitutorn

Abstract : The purpose of this study was to investigate the attitudes of the staff in the Faculty of Science and Technology towards the e-office documentary system of the Faculty of Science and Technology, Suan Sunandha Rajabhat University. The subjects of this study included 98 staffs of the Faculty of Science and Technology, Suan Sunandha Rajabhat University. Questionnaires were used to ask the attitude of the staffs towards the implementation of e-office system. The results showed that most of the users of e-office are female with the age between 31-40 years old, master degree of education and in the academic positions. They have working experiences between 1-5 years and reported the time of using e-office between 8:30-12:30 during the weekday with the frequency of 3-5 times/day. Most of them reported their opinions on the e-office at high level ($x=3.84$) and problems and obstacles in using e-office at high level, as well ($x=3.63$).

Keywords : attitudes, e-office, staff, documentary system
