

Slovenia in the Heart of Europe

Authors : M. Žibert, T. Špindler, S. Uhan, A. Lisec

Abstract : We can find Slovenia in the heart of Europe and has really good geographical location. With same slogan are promoted Switzerland, Montenegro, Greece and probably many others. However, from anatomic point of view, injustice is being made to someone because the heart is placed only in left part of chest cavity and there we can't find place for the entire territory from Switzerland to the south of Balkan.

Keywords : Ljubljana, logistics, Slovenia, tourism
