

Cuckoo Search (CS) Optimization Algorithm for Solving Constrained Optimization

Authors : Sait Ali Uymaz, Gülay Tezel

Abstract : This paper presents the comparison results on the performance of the Cuckoo Search (CS) algorithm for constrained optimization problems. For constraint handling, CS algorithm uses penalty method. CS algorithm is tested on thirteen well-known test problems and the results obtained are compared to Particle Swarm Optimization (PSO) algorithm. Mean, best, median and worst values were employed for the analyses of performance.

Keywords : cuckoo search, particle swarm optimization, constrained optimization problems, penalty method

Conference Title : ICCSET 2014 : International Conference on Computer Science, Engineering and Technology

Conference Location : Rome, Italy

Conference Dates : September 18-19, 2014
