

Towards a Business Process Model Deriving from an Intentional Perspective

Authors : Omnia Saidani Neffati, Rim Samia Kaabi, Naoufel Kraiem

Abstract : In this paper, we propose an approach aiming at (i) representing services at two levels: the intentional level and the organizational level, and (ii) establishing mechanisms allowing to make a transition from the first level to the second one in order to execute intentional services. An example is used to validate our approach.

Keywords : intentional service, business process, BPMN, MDE, intentional service execution
