

Impact of Financial and Non-Financial Motivation on Motivating Employees

Authors : Al-Yaqdhan Al-Rawahi, Kaneez Fatima Sadriwala

Abstract : The purpose of this paper is to discover the readiness of Civil Service Employee Pension Fund (CSEPF), a governmental organization, in motivating its staff. Exploratory survey has been conducted in order to extract needed information. For this purpose we proposed a questionnaire to understand staff viewpoint of motivation. Data was analyzed by using SPSS 15.0 for Windows and Excel. Major results prove that good working conditions is the most important factor of staff and sympathetic help with personal problem is the least important one. Also the relationship between financial motivation and employee motivation is very weak, whereas with non-financial motivation and employee motivation is moderate. Future research may focus on studying all departments of CSEPF.

Keywords : financial motivation, non-financial motivation, employee motivation
