

Methodological Issues of Teaching Vocabulary in a Technical University

Authors : Elza Salakhova

Abstract : The purpose of this article is to consider some common difficulties encountered in teaching vocabulary in technical higher educational institutions. It deals with the problem of teaching special vocabulary in the process of teaching a foreign language. There have been analyzed some problems in teaching a foreign language to learners of a technical higher establishment. There are some recommendations for teachers to motivate their students to learn and master a foreign language through learning terminology.

Keywords : professionally-oriented study, motivation, technical university, foreign language
