

X Ray Analysis of InAs-CrAs Eutectic Systems

Authors : Mobil Kazimov, Guseyn İbragimov

Abstract : InAs-CrAs systems are synthesized by the vertical Bridgman-Stockbarger method. XRD analysis and microstructural study of InAs-CrAs composites show that CrAs metallic inclusions are uniformly distributed in the InAs matrices.

Keywords : XRD, eutectic alloy, SEM, EDX

Conference Title : ICMPOM 2023 : International Conference on Materials Physics and Optical Materials

Conference Location : Dubai, United Arab Emirates

Conference Dates : February 16-17, 2023
