Pruning Algorithm for the Minimum Rule Reduct Generation

Authors: Sahin Emrah Amrahov, Fatih Aybar, Serhat Dogan

Abstract : In this paper we consider the rule reduct generation problem. Rule Reduct Generation (RG) and Modified Rule Generation (MRG) algorithms, that are used to solve this problem, are well-known. Alternative to these algorithms, we develop

Pruning Rule Generation (PRG) algorithm. We compare the PRG algorithm with RG and MRG.

Keywords: rough sets, decision rules, rule induction, classification

Conference Title: ICFSTA 2015: International Conference on Fuzzy Set Theory and Applications

Conference Location : Paris, France **Conference Dates :** January 23-24, 2015
