

Advancing Sustainable Futures: A Study on Low Carbon Ventures

Authors : Gaurav Kumar Sinha

Abstract : As the world grapples with climate challenges, this study highlights the instrumental role of AWS services in amplifying the impact of LCVs. Their ability to harness the cloud, data analytics, and scalable infrastructure offered by AWS empowers LCVs to innovate, scale, and drive meaningful change in the quest for a sustainable future. This study serves as a rallying cry, urging stakeholders to recognize, embrace, and maximize the potential of AWS-powered solutions in advancing sustainable and resilient global initiatives.

Keywords : low carbon ventures, sustainability solutions, AWS services, data analytics

Conference Title : ICDMBDDDS 2024 : International Conference on Data Mining, Big Data, Database and Data System

Conference Location : New York, United States

Conference Dates : January 29-30, 2024
