

Tracing the Evolution of English and Urdu Languages: A Linguistic and Cultural Analysis

Authors : Aamna Zafar

Abstract : Through linguistic and cultural analysis, this study seeks to trace the development of the English and Urdu languages. Along with examining how the vocabulary and syntax of English and Urdu have evolved over time and the linguistic trends that may be seen in these changes, this study will also look at the historical and cultural influences that have shaped the languages throughout time. The study will also look at how English and Urdu have changed over time, both in terms of language use and communication inside each other's cultures and globally. We'll research how these changes affect social relations and cultural identity, as well as how they might affect the future of these languages.

Keywords : linguistic and cultural analysis, historical factors, cultural factors, vocabulary, syntax, significance
