

Influence of European Funds on the Sector of Bovine Milk and Meat in Romania in the Period 2007-2013

Authors : Andrei-Marius Sandu

Abstract : This study aims to analyze the bovine meat and milk sector for the period 2007-2013. For the period analyzed, it is known that Romania has benefited from EU funding through the National Rural Development Programme 2007-2013. In this programme, there were measures that addressed exclusively the animal husbandry sector in Romania. This paper presents data on bovine production of meat, milk and livestock in Romania, but also data on the price and impact the European Funds implementation had on them.

Keywords : European funds, measures, national rural development programme, price
