

Important Books of Psychoneurolinguistics: Scientific-Based Approach

Authors : Sadeq Al Yaari, Ayman Al Yaari, Adham Al Yaari, Montaha Al Yaari, Aayah Al Yaari, Sajedah Al Yaari

Abstract : Objective: The study aims to summarize the most important books in psychoneurolinguistics. Method: It is a survey study that listed the most important resources and references in the field of psychoneurolinguistics for the researchers to benefit from them. Results Reliability and Validity of the books on psychoneurolinguistic research are based upon what type of topics and issues are addressed and the importance of these topics for researchers. Other standards are no more than peripheral criteria that include: Author, publishing house, edition, etc.

Keywords : books, resources, psychoneurolinguistics, scientific research, references
