

The Application of Narrative Theory in Urban Spaces in China: A Systematic Review Based on PRISMA

Authors : Yuhan Liu, Zhongde Wang

Abstract : This paper mainly analyzes the research and application of narrative theory in the field of urban space. This study used the PRISMA systematic review method, systematically studied 3098 Chinese literature through the search and screening of relevant domestic key literature databases, and reviewed the research status of narrative theory in urban space from three aspects: "theoretical perspective", "research object" and "research application". Finally, this paper points out the future development direction of narrative theory research based on the shortcomings of existing research in order to provide new ideas for future research.

Keywords : narrative theory, urban space, PRISMA, systematic review
