

Gravity and Geometric String Mechanics

Authors : Joe Price LeClair

Abstract : Understanding the geometry of the universe using hydrogen as a representation of a balance point between energy and matter in motion while using the neutron to explain the stability in threes.

Keywords : gravity, geometric string mechanics, physics, theoretical physics

Conference Title : ICMTTP 2024 : International Conference on Mathematical and Theoretical Physics

Conference Location : Sydney, Australia

Conference Dates : December 02-03, 2024
