

## **Socio-Economic Problems in Treatment of Non-Union Both Bones Fracture of the Leg: A Retrospective Study**

**Authors :** Rajendra Kumar Kanojia

**Abstract :** Treatment of fracture both bones of leg following trauma is done intially at nearby primary health care center.primary management for shock,pain,control of bleeding,plaster application. These are treated for primay fixation of fracture, debridment of wound. Then, they were refered to tertiary care where they were again and planned for further treatment. This leads to loss of lot of time, money, job, etc.

**Keywords :** fracture both bones leg, non-union, ilizarov, cost
