

Conformal Invariance and F(R,T) Gravity

Authors : P. Y. Tsyba, O. V. Razina, E. Güdekli, R. Myrzakulov

Abstract : In this paper, we consider the equation of motion for the F(R,T) gravity on their property of conformal invariance. It is shown that in the general case such a theory is not conformally invariant. Special cases for the functions v and u , in which the properties of the theory can appear, were studied.

Keywords : conformal invariance, gravity, space-time, metric
