

Exactly Fractional Solutions of Nonlinear Lattice Equation via Some Fractional Transformations

Authors : A. Zerarka, W. Djoudi

Abstract : We use some fractional transformations to obtain many types of new exact solutions of nonlinear lattice equation. These solutions include rational solutions, periodic wave solutions, and doubly periodic wave solutions.

Keywords : fractional transformations, nonlinear equation, travelling wave solutions, lattice equation

Conference Title : ICMIPA 2015 : International Conference on Mathematical Physics and Applications

Conference Location : Istanbul, Türkiye

Conference Dates : February 16-17, 2015
