

Parental Investment in Education: A Pathway for the Children's Access to Quality Education

Authors : Tukur Husaini Nahuche

Abstract : The parent resources play a vital role in the life of the offspring. It help give children basic necessities of life like food, clothing, and housing. In a like manner financial assets allow parents to move into neighborhood with more affluent school systems, to pay school bills, purchase expensive technologies like personal computer, save money for tutoring books, magazines, journals, Newspapers etc. Making of proper provision in the home environment conducive for learning after school hours and creation of other outdoor activities for them are what necessitate in enhancing and accelerating children's learning opportunities. Indeed, this paper intends to discuss parental investment in education, parent income resources, parental education, occupation, and income as relatively influencing children's access to quality education. With the hope that families would provide equal opportunities for children irrespective of their sex, intelligence, subject choice, etc.

Keywords : parental investment, children's access, quality education
