

Rural Electrification in India-Challenges and Solutions

Authors : P. Chandhra Sekhar, R. A. Deshpande, T. Raghunatha

Abstract : The government of India has given special attention on rural electrification under Rajiv Gandhi Grameena Vidyuthikarana Yojana (RGGVY) during 10th plan and 11th plan. Government of India electrified about 107523 villages and 21164003 BPL Households. This paper briefs about various rural electrification programs initiated by government of India and status of RGGVY in India. The paper mainly describes about challenges in the rural electrification, new ideas recently implemented and suggestions for improvement in the rural electrification.

Keywords : rural electrification, RGGVY, NJY, BPL
