

Socioeconomic Values and Administration in Northern Nigeria: An Examination of the Impacts of Dearth of Values

Authors : Hassan Alhaji Hassan, Inuwa Abdu Ibrahim

Abstract : The research looks at the decaying socioeconomic values in northern Nigeria, which is directly affecting the administration of service at different levels. The aim is to establish the consequence of a valueless society on individual and public life at different levels. The result of governments' continued neglect of education, societal values, which have negatively affected societal development and indeed development in general. Therefore, focus is on governments' poor performance in Nigeria, using secondary sources of data. In conclusion, the research asserts the need for the application of the values of some traditional values as personal principles and good governance as the way out of the present deteriorating conditions.

Keywords : socioeconomic, values, education, Northern Nigeria, good governance
