

Cloud Computing Architecture Based on SOA

Authors : Negin Mohammadrezaee Larki

Abstract : Cloud Computing is a popular solution that has been used in recent years to cooperate and collaborate among distributed applications over networks. Moving successfully into cloud computing requires an architecture that will support the new cloud capabilities. Many business leaders and analysts agree that moving to cloud requires having a solid, service-oriented architecture to provide the infrastructure needed for successful cloud implementation.

Keywords : Service Oriented Architecture (SOA), Service Oriented Cloud Computing Architecture (SOCCA), cloud computing, cloud computing architecture

Conference Title : ICCSET 2015 : International Conference on Computer Science, Engineering and Technology

Conference Location : Istanbul, Türkiye

Conference Dates : February 16-17, 2015
