

A New Paradigm to Make Cloud Computing Greener

Authors : Apurva Saxena, Sunita Gond

Abstract : Demand of computation, data storage in large amount are rapidly increases day by day. Cloud computing technology fulfill the demand of today's computation but this will lead to high power consumption in cloud data centers. Initiative for Green IT try to reduce power consumption and its adverse environmental impacts. Paper also focus on various green computing techniques, proposed models and efficient way to make cloud greener.

Keywords : virtualization, cloud computing, green computing, data center

Conference Title : ICAIS 2015 : International Conference on Arabic and Islamic Studies

Conference Location : Lisbon, Portugal

Conference Dates : April 16-17, 2015
