

Availability and Utilization of Health Care Facilities in Jalpaiguri Town

Authors : Sharmistha Mukherjee

Abstract : Health care is the basic requirement for all. The prime question is who gets what, where and how? The unequal distribution of basic facilities do have a adverse effect on the users. The paper tries to examine health care in terms of available facilities, the health care need and how people perceive to it in a small town of Jalpaiguri in the midst of tea gardens in North Bengal. The morbidity pattern is also minutely observed with a section describing the organizational structure of health care keeping in mind the utilization.

Keywords : availability, distribution, health care, utilization
