# To Present and Explain Effective Methods in Teaching Social Science

**Authors :** Sulmaz Mozaffari, Zahra Mozaffari, Saman Mozaffari

**Abstract :** Training is a counting and orderly process which purpose is to grow all as peals of the students to get the human knowledge and have the social norms. Also to help them grow their talents. Social science as in educational and training science at the sometime is very important for schools and universities. Unfortunately the method which is mostly used for teaching and training at present is student- teacher method and because of its ease the other methods are ignored. This research is to consider the most efficient methods in social science and analyse them. The Results show that the best methods in which the students are present during the teaching procedure.
