

How to Applicate Knowledge Management in Security Environment within the Scope of Optimum Balance Model

Authors : Hakan Erol, Altan Elibol, Ömer Eryılmaz, Mehmet Şimşek

Abstract : Organizations aim to manage information in a most possible effective way for sustainment and development. In doing so, they apply various procedures and methods. The very same situation is valid for each service of Armed Forces. During long-lasting endeavors such as shaping and maintaining security environment, supporting and securing peace, knowledge management is a crucial asset. Optimum Balance Model aims to promote the system from a decisive point to a higher decisive point. In this context, this paper analyses the application of optimum balance model to knowledge management in Armed Forces and tries to find answer to the question how Optimum Balance Model is integrated in knowledge management.

Keywords : optimum balance model, knowledge management, security environment, supporting peace
