

2023 Targets of the Republic of Turkey State Railways

Authors : Hicran Açikel, Hüseyin Arak, D. Ali Açikel

Abstract : Train or high-speed train is a land transportation vehicle, which is safe and offers passengers flight-like comfort while it is preferred for busy lines with respect to passengers. In this study, TCDD's (Turkish State Railroads Company) targets for the year of 2023, the planned high-speed train lines, improvements, which are considered for the existing lines, and achievability of these targets are examined.

Keywords : train, high-speed train, TCDD, transportation
