

## **Efficiency of Storehouse Management: Case Study of Faculty of Management Science, Suan Sunandha Rajabhat University**

**Authors :** Thidarath Rungruangchaikongmi, Duangsamorn Rungsawanpho

**Abstract :** This research aims to investigate the efficiency of storehouse management and collect problems of the process of storehouse work of Faculty of Management Science, Suan Sunandha Rajabhat University. The subjects consisting of head of storehouse section and staffs, sampled through the Convenience Sampling Technique for 97 sampling were included in the study and the Content Analysis technique was used in analysis of data. The results of the study revealed that the management efficiency of the storehouse work on the part of work process was found to be relevant to university's rules and regulations. The delay of work in particular steps had occurred due to more rules and regulations or practice guidelines were issued for work transparency and fast and easy inspection and control. The key problem of the management of storehouse work fell on the lack of knowledge and understanding regarding university's rules and regulations or practice guidelines of the officers.
