

The Roles of Aesthetics and Information Quality on Intention to Continued Used of Digital Library within the Context of UTAUT2

Authors : Shahruhaida Adayu Mohd Paili, Abd Latif Abdul Rahman, Asmadi Mohammed Ghazali

Abstract : Digital library was developed by many organizations, especially universities. The digital library can be considered as a new information system. Digital library brings many benefits to the users. There are many researches that have investigated the importance of the digital library, the acceptance, and continuance use of digital library. The investigation towards the digital library is important and it is crucial to understand the reason why users accept and continued use of digital library. Users can search the information and available resources through the digital library website. It is important to know the user's perception towards the aesthetics of the digital library. Besides that, because of digital library provided information to the users, the researcher also needed to investigate the quality of information in digital library. This study used Extending the Unified Theory of Acceptance and Use of Technology (UTAUT2) in order to know the user's intention to continued use of digital library.

Keywords : digital library, aesthetics, information quality, intention to continued use of digital library, UTAUT2

Conference Title : ICCCISE 2016 : International Conference on Computer, Communication, Information Science, Engineering

Conference Location : Kuala Lumpur, Malaysia

Conference Dates : February 11-12, 2016
