

Proposed Pattern for Fitted Men's Suit Jacket Using the Method of Draping on the Mannequin

Authors : Hazem A. Abdelfattah, Salia H. Khafaji

Abstract : Apparel industry needs to direct scientific researches to develop it , and because of the importance of a men's suit jacket industry, the study of the basics of men's jacket pattern making requires a high degree of accuracy and efficiency which contain a lot of technical and skill aspects to give the jacket a drape, comfort and good fitting , prompting researchers to think about the use of men's mannequin with sizes (M-L-XL) to devise a method to draft a paper pattern for the men's suit jacket to use it in the industry easily and quickly and achieve the required good fitting.

Keywords : draping, pattern, men, jacket
