

A Framework on the Critical Success Factors of E-Learning Implementation in Higher Education: A Review of the Literature

Authors : Sujit K. Basak, Marguerite Wotto, Paul Bélanger

Abstract : This paper presents a conceptual framework on the critical success factors of e-learning implementation in higher education, derived from an in-depth survey of literature review. The aim of this study was achieved by identifying critical success factors that affect for the successful implementation of e-learning. The findings help to articulate issues that are related to e-learning implementation in both formal and non-formal higher education and in this way contribute to the development of programs designed to address the relevant issues.

Keywords : critical success factors, e-learning, higher education, life-long learning
