

## Impact of Depreciation Technique on Taxable Income and Financial Performance of Quoted Consumer Goods Company in Nigeria

**Authors :** Ibrahim Ali, Adamu Danlami Ahmed

**Abstract :** This study examines the impact of depreciation on taxable income and financial performance of consumer goods companies quoted on the Nigerian stock exchange. The study adopts ex-post factor research design. Data were collected using a secondary source. The findings of the study suggest that, method of depreciation adopted in any organization influence the taxable profit. Depreciation techniques can either be: depressive, accelerative and linear depreciation. It was also recommended that consumer goods should adjust their method of depreciation to make sure an appropriate method is adopted. This will go a long way to revitalize their taxable profit.
