

A Small Signal Model for Resonant Tunneling Diode

Authors : Rania M. Abdallah, Ahmed A. S. Dessouki, Moustafa H. Aly

Abstract : This paper has presented a new simple small signal model for a resonant tunnelling diode device. The resonant tunnelling diode equivalent circuit elements were calculated and the results led to good agreement between the calculated equivalent circuit elements and the measurement results.

Keywords : resonant tunnelling diode, small signal model, negative differential conductance, electronic engineering

Conference Title : ICEEE 2014 : International Conference on Electrical and Electronics Engineering

Conference Location : Miami, United States

Conference Dates : March 10-11, 2014
