

## Analysis of Steles with Libyan Inscriptions of Grande Kabylia, Algeria

**Authors :** Samia Ait Ali Yahia

**Abstract :** Several steles with Libyan inscriptions were discovered in Grande Kabylia (Algeria), but very few researchers were interested in these inscriptions. Our work is to list, if possible all these steles in order to do a descriptive study of the corpus. The steles analysis will be focused on the iconographic and epigraphic level and on the different forms of Libyan characters in order to highlight the alphabet used by the Grande Kabylia.

**Keywords :** epigraphy, stele, Libyan inscription, Grande Kabylia
